Internship Project Title: Organic Farming
<p>Activities/objectives envisaged in the internship and area/department in which the intern will be placed</p> <p>The student will receive training on the current regulations governing organic agriculture.</p> <p>Part of the internship will take place in the office and will involve preparing documents for the organic companies of Coldiretti Pavia, including: seed exemption requests, registers (field notebooks), collection of delivery notes and invoices, calculations for the correct use of fertilizers and plant protection products permitted in organic farming, preparation of company technical reports, and, in the case of livestock farms, calculations of correct feed rations.</p> <p>Another part of the internship will take place directly at the companies, during inspections carried out by certification body inspectors, alongside the Coldiretti Pavia technician. These visits will involve field inspections as well as visits to processing laboratories, cellars and farms.</p>
<p>Student Requirements/Skills.</p> <p>Italian language proficiency</p> <p>Plant agronomic knowledge, digital and IT knowledge, good communication skills and good teamwork skills,</p> <p>Availability on Saturday and Sunday during events,</p> <p>Driving license is required</p>
<p>Potential Thesis Area and Topic:</p> <p>New management and development perspectives in organic companies</p>
<p>Internship Location:</p> <p>Coldiretti, Pavia, via Brambilla 34 , and via Golgi 84 Pavia.</p> <p>Several meeting with the involved farms will be scheduled.</p>
<p>Duration of the Internship (12 months):</p> <p>12 months</p>
<p>Expense Reimbursement - Information to be collected if the company has a different policy from the minimum (min €500/net - max €800/net) - specify any additional benefits (e.g., shuttle, canteen, lodging):</p> <p>500 €/month</p>
Specific Requests from the Company
