Contenuti del Progetto e informazioni sul tirocinio

Titolo del progetto di tirocinio: Agroecology and Sustainable Farming
Attività/obiettivi previsti nel tirocinio e area/dipartimento in cui sarà inserito il tirocinante: The student will support the company's daily activities working alongside a team of agronomists specialized in agroecology. Tasks will involve both field work—such as crop monitoring and providing technical support to agroecological farms—and desk-based work, including planning, preparing documents, writing agronomic reports, and other technical tasks. The student will interact with a wide range of agrifood sector stakeholders.
Requisiti/ competenze tirocinante: - Academic research and writing - Excel - Possibly knowledge of the Italian language - Basics of plant science and agronomy - Interest in the socio-economic and environmental aspects of farming practices and in agroecology - Teamwork
Potenziale ambito e argomento di tesi: The student could collect data and carry out a research project on one of the many initiatives we are currently involved in, depending on the student's personal interests, skills, and attitude. Thanks to our network of farms and other agri-food companies, we participate in a wide range of projects—from field experiments to broader research studies—often in collaboration with public, regional, national, and international institutions.
Sede del Tirocinio: Milano, Lombardia
Durata del tirocinio (12 mesi)

Rimborso spese - informazione da acquisire se l'azienda ha una politica diversa dal minimo (min 500€/netti- max 800€/netti) - indicare eventuali altri benefit (navetta, mensa, foresteria...): 500€/netti
